HIGHLIGHTS					
<i>NOTE: This is a draft version of the December 8, 2022, Community Engagement and Education Committee (CEEC) Meeting Minutes which is subject to change. The final version will be approved at the January 19, 2023, meeting.</i>					
AGENDA					
ITEM	DISCUSSION				
Call to Order	Jenné M. called the meeting to order at 5:08 pm, followed by a moment of silence and introductions.				

<p>Review and Adoption of the Agenda</p>	<p>Jenné assumed the motion to adopt the agenda for December 8, 2022. The agenda was adopted as presented.</p>
<p>Review and Approval of the Minutes</p>	<p>Jenné assumed the motion to approve the meeting minutes for October 20, 2022. There were no corrections to the minutes. The minutes were approved as presented.</p>
<p>Protocol Implementation Summit Recap</p>	<p>Jenné indicated that she received positive feedback about the Protocol Implementation Summit. Pre and post evaluations were submitted. Responses are still being compiled. Once completed it will give clear data on the feedback. Jenné should have the results from the evaluations by next meeting.</p> <p>Everyone commended Jed B. for an awesome job organizing and facilitating the event. Some of the positive feedback about the event was:</p> <ul style="list-style-type: none"> • The space. The monitor and presentations were easily seen throughout the room. • Great venue. Convenient. There was appreciation for the event being held at the Human Right Campaign (HRC) because of the important work they do. • The food was good. • It was well attended (approximately 65 attendees), including representation from every jurisdiction, as far out as Baltimore. There was no representation from West Virginia. • Presentations were relevant and provided valuable information, void of redundancy from other presentations. There was diversity in how information was presented. • Partnerships with other organizations. The venue was intimate, and attendance was small enough to provide opportunity for networking and the distribution of materials from different organizations. • Hearing the Ending the HIV Epidemic (EHE) updates from the jurisdictions and the juxtaposition of Virginia, who is not receiving funding for EHE but still doing the work with their protocol. <p>Other feedback about the event was:</p> <ul style="list-style-type: none"> • Expensive to park. Downtown traffic patterns getting to the event were confusing. Considering the costliness of DC, it was suggested rotating future events around the different jurisdictions. • Revisit how the lunch period is conducted. It was intended to be a working interactive lunch but lacked participation. Instead consider having a presentation that people can listen to. <p>There were two future topics suggested. Innovation and Addressing Stigma.</p>
<p>Youth Summit Discussion</p>	<p>Anthony F. led the discussion about youth that receive HIV services and are known to be sexually active, but do not attend meetings that discuss sexual health. It was noted that the age group between 18 to 30 are interested in sex but not the consequences that could follow. Therefore, Anthony and HAHSTA</p>

	<p>are soliciting CEEC for engagement in trying to find ways to bring youth to the table for discussion.</p> <p>Suggestions for having an event:</p> <ul style="list-style-type: none"> • Have a mixer sometime in February to prepare for a larger event. Avoid February 14th to encourage more participation from the youth and facilitators. Use the first hour as a focus group to determine what the youth would like to create. • Use the Positive Voices Podcast as an advertising tool. Be sure the messages are status neutral. Engage Us Helping Us (UHU) and other sexual health offices for direct recruitment of those who have received services from them in the past year. • Do not call the event a summit. Find a more youthful term that would be attractive to young people. • Advertise on Tinder or Grindr. • Add an employment component. Those who present creative, relative, informative suggestions may be considered for possible employment or internships. Speak about careers in HIV or Public Health. For the younger groups, inform them of the Pathway and Pipeline Programs and the programs at George Washington University through the Rodham Institute. Consider having representatives to attend. • Engage public schools and radio stations to control the venues and fray some of the cost of entertainment. <p>Some incentives to promote participation may include:</p> <ul style="list-style-type: none"> • Concert tickets. Consider artist that don't have high performance fees. Mackenzie has relationships with influential people at the 9:30 Club and the various IMP venues like the Anthem whom he is willing to talk to about discounted tickets. • Subscriptions to Tinder or Grindr @ \$10- \$15 a person. Mackenzie also has a relationship with representatives at Grindr and believes this to be a good incentive to capture the targeted population. • Bar tickets for those over 21 years of age. <p>Things to consider: What is the timeline (Date)? Maybe the larger event could take place in April around National Youth HIV Awareness Day. Define youth (i.e., 14-18, 18-21, 21-30 etc.). What are the objectives? What are the deliverables? Venue? How long for the event?</p> <p>Next steps: Post the information on Basecamp to the entire COHAH. A workgroup will be formed by those who express interest. Anthony will send an email to assign selected persons to the workgroup.</p>
<p>D(Seeing) Project update</p>	<p>Jenné tabled the discussion until next meeting. The first D(Seeing) group meeting is next week. More information will be available to report after that occurs.</p>

The Washington, D.C. Regional Planning Commission on Health and HIV (COHAH) will invigorate planning for HIV prevention and care programs that will demonstrate effectiveness, innovation, accountability, and responsiveness to our community.

Other Business	None reported.		
Announcements and Adjournment	Julie O. announced that Clover Barnes, Senior Deputy Director for HAHSTA, sent the completed Integrated Plan for the EMA to the DCHealth Communications Department for approval. Once approved it will be forwarded to the Centers for Disease Control and Prevention (CDC) and Health Resources and Services Administration (HRSA).
