

# Get Your Child Vaccinated at a School Based Health Center!

School Based Health Centers are now open to the community for routine pediatric and COVID-19 vaccinations until August 26, 2022. Students age 3 and older can receive all school-required vaccinations, including the COVID-19 vaccine. For adolescents 12 years and older, COVID-19 is now required for school attendance. Parents/guardians are welcome to get their COVID-19 vaccines too! Vaccine appointments are available at School Based Health Centers for all students, regardless of where they are enrolled. To make an appointment, call the number at the location nearest you, or use the QR code to schedule an appointment online.

## We are open to serve you at the following locations.
