

Target Audience

This knowledge based program was developed to meet the educational needs of pharmacists & Pharmacy Technicians.

Educational Goal

To promote an understanding of pharmacotherapy of common diseases affecting public health and patient safety and to bridge the gap of knowledge that may exist by reviewing latest advances in the diagnosis and treatment of these diseases

Continuing Education Credit

This course is approved for six CPE hours for pharmacists & Pharmacy Technicians. CE credits will be electronically submitted to NABP within 30 days. Participants will be required to complete pre-test & post-tests.
