L 052	Continued From page 12 took a bath/shower. The resident responded, " I have not had a shower since I was admitted to the facility on the 26th of September [2016]. " The resident added, " They wash me up real good in the bed but I like showers. " A review of the resident ' s " Shower Sheets " (A form on which the staff documents when the resident receives baths/showers) revealed that Resident #457 received no showers between the resident ' s date of admission to the facility (9/26/16) and the date of review (October 18, 2016). A face-to-face interview was conducted with Employee #6 at approximately 4:30 PM on October 19, 2016. The employee reviewed the shower sheets and acknowledged the finding. B. Based on observations made during the environmental tour of the facility on October 20, 2016 at approximately 2:30 PM and on October 21, 2016 at approximately 10:30 AM, it was determined that the facility failed to ensure that residents receive services with reasonable accommodations of individual needs as evidenced by call bell pull cords that were too short to be accessible in four (4) of 64 resident ' s bathrooms. The findings include: The call bell cords in the bathroom of resident room #359, #332, #250, #219, #129 were too short to be accessible to residents.	L 052	**3211.1 Nursing Facilities continued** **B. Length of Call Cords** 1. Call cords found to be too short were replaced upon discovery. 10/21/16 2. All call cords in the facility were inspected to ensure their proper length. Call cords were replaced whenever necessary. 10/31/16 3. The Maintenance Staff was Inserviced on the proper length of the call cords. The Maintenance Quality Improvement Team will monitor the length of the call cords on a monthly basis and report their findings to the Director of Facilities. 11/29/16 4. The Director of Facilities will present his findings and any action plans for improvement to the Quality Improvement Committee which meets monthly and is chaired by the Administrator. 11/29/16

L 052	Continued From page 13 These observations were made in the presence of Employee #21 who acknowledged the findings. C. Based on observations made on October 18, 2016 at approximately 10:00 AM and on October 19, 2016 at approximately 2:15 PM and interviews held on October 21 at approximately 11:00 AM, it was determined that sufficient nursing time shall be given to ensure that resident's environment remain free of accident hazard as evidenced by the use of a single edge razor blade by one (1) resident for personal use and failed to consistently update the assessments/evaluations for one (1) resident who was identified as a smoker On October 18, 2016 at approximately 10:00 AM, Resident #93 was observed using a single-edge razor blade to cut out newspaper articles for personal use. The resident stated that he/she has been using a blade since he/she has lived in the facility and it ' s a hobby he/she enjoys. In a face-to-face interview on October 21 at approximately 11:00 AM, the resident said that the facility staff had never seen [him/her] use the razor blade and was not aware that he/she had one. The resident said that [his/her] [family member] brought [him/her] the razor blades and [he/she] only uses them to cut out the newspaper articles. Resident #93 further stated that [he/she] keeps the blade(s) concealed in a drawer in [his/her] cabinet. When asked how he/she disposed of the razor blade when he/she is finished with it, the resident replied that [he/she] covers the blade with paper,	L 052	**3211.1 Nursing Facilities continued** **C. Resident #93** 1. The resident has agreed to allow the nursing staff to store his razor blade in the Nursing medication cart when not in use and to be monitored when he is using the razor blade for his scrapbooking hobby and to be involved when he is ready to dispose of the razor blade. 2. No other residents are affected. 3. Nursing staff on the unit have been Inserviced to monitor the resident's storage, use and disposal of his razor blades. 4. The Director of Nurses will report on this issue at the Quality Improvement Committee which meets monthly and is chaired by the Administrator.	11/25/16 11/25/16 11/29/16

L 052	Continued From page 15 smoking policy due to impaired cognition. A review of the clinical record for Resident #129 revealed that the facility failed to evaluate the resident ' s smoking ability quarterly as directed by the smoking policy. A face-to-face interview was conducted with Employees # 4 and #15 at approximately 1:00 PM on October 20, 2016. Both reviewed the resident ' s electronic clinical record and acknowledged that smoking reassessments for Resident #129 were not consistently updated. The clinical record was reviewed on October 20, 2016. E. Based on record review and staff interview for one (1) of 44 Stage 2 sampled residents, it was determined that sufficient nursing time shall be given to consistently assess and monitor the condition of Resident #227 ' s skin to ensure that necessary treatment and services were provided. Subsequently, the resident developed an Unstageable Sacral Pressure Ulcer that was initially identified at an advanced stage. The findings include: Policy: " CLIN-027 Skin Care - Preventive Care; Revision date 3/21/16 [March 21, 2016] Purpose: To identify residents who are at risk for the development of skin breakdown. To provide nursing interventions to prevent skin breakdown whenever possible. Policy: 1. Residents will be assessed using the Braden	L 052	**3211.1 Nursing Facilities continued** **E. Resident #227** 1. This resident no longer resides at our facility. 2. A skin sweep was performed on all residents by the wound team which is headed by a CWON to ensure that all residents were assessed and subsequently monitored to ensure the necessary treatment and services are provided. 3. Licensed and certified nursing staff were retrained on the facility policy and procedure for proper skin/wound assessment and monitoring. The Assistant Directors of Nurses, Clinical Managers and House Supervisors will monitor and audit this process weekly to ensure compliance and report all of their findings to the Director of Nurses for his review. 4. The Director of Nurses will present his findings and any action plans for improvement to the Quality Improvement Committee which meets monthly and is chaired by the Administrator.	10/18/16 11/15/16 11/29/16 11/29/16

L 091	3217.6 Nursing Facilities The Infection Control Committee shall ensure that infection control policies and procedures are implemented and shall ensure that environmental services, including housekeeping, pest control, laundry, and linen supply are in accordance with the requirements of this chapter. This Statute is not met as evidenced by: Based on observation and staff interview facility staff failed to maintain proper hand hygiene practice during the dining observation for one (1) resident and during a dressing change for one (1) resident. The findings include: 1. During an observation of a dressing change for one (1) of 44 stage two (2) sampled residence, the charge nurse failed to practice in a manner to prevent the spread of infection by failing to cleanse the surface of a table (1) before placing dressing change materials on it. (2) to wash and/or sanitize hands after pausing to clean stool and before continuing with dressing change. (Employee changed glove but never washed/or hands) and (3) continued to remove the resident's socks and heel protector and applied skin prep to both heels while still wearing the same gloves. The observation was made at approximately 11:30AM on October 20, 2016. A face-to-face interview was conducted with Employee #33 immediately after the procedure. The employee acknowledged failing to cleanse the surface of the table prior to placing the dressing change items on it and to wash and/or	L 091	**3217.6 Nursing Facilities** 1. Employee involved with this dressing change was counseled and educated immediately upon discovery. 10/31/16 2. Dressing change observations were done throughout the facility to ensure safe and sanitary practices. 11/29/16 3. Inservice education was given to licensed nursing staff regarding the use of proper infection control techniques during dressing changes. The Nursing Quality Improvement Team will audit this practice on a monthly basis and forward the results of their audits to the Director of Nurses. 4. The Director of Nurses will present his findings along with any action plans for improvement to the Quality Improvement Committee which meets monthly and is chaired by the Administrator. 11/29/16

L 091	Continued From page 24 sanitize hands throughout the dressing change procedure. A face-to-face interview was also conducted with Employee #6 at approximately 3:00PM on October 20, 2016 regarding Employee #33 ' s performance. Employee #6 acknowledged the finding. 2. Based on observation and staff interview facility staff failed to maintain proper hand hygiene practice during the dining observation. " Evidence supports the belief that improved hand hygiene can reduce health-care-associated infection rates. Failure to perform appropriate hand hygiene is considered the leading cause of health-care-associated infections and spread of multiresistant organisms and has been recognized as a substantial contributor to outbreaks " http://www.cdc.gov/mmwr/PDF/rr/rr5116.pdf#page=19 During a dining observation conducted on October 17, 2016 at approximately 12:50 PM. Employee #24 was observed bending down to the floor and using a tissue to wipe up spilled beverage from the floor. The soiled tissue paper that was used to wipe the floor was then place on the beverage cart, without washing or sanitizing his/her hands the employee poured the resident ' s beverage into a cup and served it to the resident. The resident was observed receiving the beverage. A face-to-face interview was conducted with Employee #4 and Employee #23 on October 17, 2016 at approximately 1:00 PM in the presence of	L 091	**3217.6 Nursing Facilities** 2. 1. The staff involved was immediately Instructed on how to serve food in a sanitary manner and on proper hand hygiene. 2. Many staff were observed serving food appropriately and washing their hands using proper techniques. 3. Nursing staff was inserviced regarding CDC guidelines for proper hand hygiene techniques as well as proper procedures for handling food and liquids. The Nursing Quality Improvement Team will audit monthly for compliance. Their findings will be forwarded to the Director of Nurses for his review. 4. The Director of Nurses will present the results of these audits and any action plans for improvement to the Quality Improvement Committee which meets monthly and is chaired by the Administrator.	10/25/16 10/25/16 11/29/16 11/29/16

L 206	Continued From page 29 approximately 10:31 AM. Employee #2 stated, " [He/she] did not think that the injury was serious enough, the CNA [Certified Nursing Assistant] witnessed it, all we needed to do was to apply cold compress, the Nurse Practitioner saw the resident. " Facility staff failed to report an unusual occurrence of a facial/eye trauma for one (1) resident to the State Agency. The record was reviewed on October 20, 2016. B. Based on resident interview, staff interview and record review for one (1) of 44 Stage 2 sampled residents, it was determined that facility staff failed to (a) thoroughly investigate and address an allegation of an alleged sexual abuse of one (1) resident. Resident #12 and Resident #336 reported the allegation to the State Agency. The findings include: In response to a Stage 1 question: "Have you ever seen anyone being sexually abused the resident responded " yes." The resident identified the resident of the alleged abuse as his/her roommate. The resident then stated that a male resident had lifted his/her roommate's covers and placed his/her hands between the resident's legs. The incident occurred while they were in the hall. He/she could not identify the male but knows that he is a resident of the facility. He/she told CNA [Employee #33] of the incident. The resident added, " The manager came, took me to his/her office and asked me about the incident and I told him/her what I saw. I don ' t know what happened after that. " A face-to-face interview was then attempted with Resident #12 on October 18, 2016 at	L 206	**3232.4 Nursing Facilities continued** B. 1. An incident report was completed upon discovery that one had not been written. The attending physician, Department of Health and Ombudsman Had previously been notified. 2. A review of all incidents was conducted by the Director of Nurses to evaluate if any other residents were involved in allegations of abuse. None were found. 3. Facility staff was inserviced regarding prompt notification, incident reporting, and investigation of all allegations of abuse. The Nursing Quality Improvement Team will monitor the medical records and incident reports to ensure prompt response and reporting requirements are followed. The results of this monitoring will be forwarded to the Director of Nurses for his review. 4. The Director of Nurses will present his findings and any action plans for improvement to the Quality Improvement Committee which meets monthly and is chaired by the Administrator.	10/19/16 6/15/16 11/29/16 11/29/16

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (EACH DEFICIENCY MUST BE PRECEDED BY FULL REGULATORY OR LSC IDENTIFYING INFORMATION)	ID PREFIX TAG	PROVIDER'S PLAN OF CORRECTION (EACH CORRECTIVE ACTION SHOULD BE CROSS-REFERENCED TO THE APPROPRIATE DEFICIENCY)	(X5) COMPLETE DATE
L 442	Continued From page 35 2016 at approximately 10:00 AM, it was determined that the facility failed to maintain essential equipment in good working condition as evidenced by low final rinse temperatures from the dishwashing machine, loose door handles from two (2) of four (4) convection ovens and missing handles from two (2) of five (5) steam table well covers. The findings include; 1. The dishwashing machine final rinse temperature failed to reach 180 degrees Fahrenheit on numerous occasions on October 20, 2016 between 9:30 AM and 10:30 AM. The dishwashing machine was repaired at approximately 4:15 PM and the final rinse temperature was consistently above 180 degrees Fahrenheit during multiple, consecutive rinse cycles. 2. Door handles from two (2) of four (4) convection ovens were loose. 3. Two (2) of five (5) steam table well covers were missing a handle. These observations were made in the presence of Employee #27 who acknowledged the findings.	L 442	**3258.13 Nursing Facilities** 1. Dish Washing Machine 1. Hobart was called immediately to repair/correct the temperature of the final rinse. A small adjustment to the booster heater was made and the dish washing machine's final rinse temperatures were at 180 degrees F or higher. 2. No other equipment was effected. 3. Inservicing was done with the Dietary staff on monitoring of the dish washing machine temperatures. Final rinse temperatures are monitored and recorded daily. The written results are given to the Director of Nutritional Services for his review. 4. The Director of Nutritional Services will present the results of the monitoring and any action plans for improvement to the Quality Improvement Committee which meets monthly and is chaired by the Administrator. **2&3. Handles – Convection Ovens and Steamtable wells** 1. Handles requiring repair or replacement were attended to immediately upon discovery. 2. There were no other steam table wells or convection oven handles which needed attention. 3. Inservicing was done with the Dietary staff on monitoring of the handles of the various equipment. The supervisors will monitor the repair of the equipment monthly. The written results will be given to the Director of Nutritional Services for his review. 4. The Director of Nutritional Services will present the results of the monitoring and any action plans for improvement to the Quality Improvement Committee which meets monthly and is chaired by the Administrator.	10/20/16 10/20/16 10/31/16 11/29/16 10/20/16 10/20/16 10/31/16 11/29/16
