L 000	Initial Comments A licensure survey was conducted from March 28 through March 30, 2006. The following deficiencies are based on observation, staff and resident interviews and record review. The sample included 25 residents with one (1) supplemental resident based on a census of 161 the first day of survey.	L 000	Preparation and/or execution of this Plan of Correction do not constitute admission or agreement by the provider of the truth of the facts alleged or concluded in the Statement of Deficiencies. The Plan of Correction is prepared and/or executed solely because the provisions of Federal and State laws require it. The responses to the deficiencies in the Plan of Correction will be answered in the following numerical sequence: 1. How will the corrective actions be accomplished for those residents found to have been affected by the deficient practice? 2. How will you identify other residents having the potential to be affected by the same deficient practice and what corrective action will be taken? 3. What measures will be put in place or what systematic changes you will make to ensure that the deficient practice does not occur. 4. How do you plan to monitor your performance to make sure that solutions are sustained? 5. When will corrective action be completed?	
L 012	3203.2 Nursing Facilties A list of all employees, with the appropriate current license or certification numbers, shall be on file at the facility and available to the Director. This Statute is not met as evidenced by: Based on observation, staff interview and record review, it was determined that two (2) physicians failed to maintain current credentials at the facility. Physicians #1 and #2. The findings include: A review of the physicians' licenses maintained by the facility revealed that Physician #1 had a District of Columbia Controlled Substance license with an expiration date of September 30, 2005. Physician #2 had a Drug Enforcement Agency license (DEA) with an expiration date of January 31, 2006. Current licenses had not been provided by the physicians. A letter was sent to Physician #1 from the administrator on December 8, 2005 indicating that his/her privileges at the facility would be suspended (no date indicated) unless a current license was provided. The physician was not suspended and the license was not provided until March 29, 2006. A letter was sent to Physician #2 from the	L 012

L 012	Continued From page 1 administrator on March 16, 2006 indicating that his/her privileges at the facility would be suspended unless a current license was received by the facility within the next two weeks (March 30, 2006). A license was provided on March 29, 2006. According to the current licenses provided on March 29, 2006, Physician #1's District of Columbia Controlled license expired September 30, 2006 and Physician #2's DEA license expired January 31, 2009. Both physicians continued to see residents and write orders during this period. According to the facility's policy, "Attending Physicians/Consultant Staff " policy #99-001, issued from the Medical Staff Department, under, "Qualifications: All attending physicians must register with the facility, submit copies of their current and valid District of Columbia license, Federal and local Drug Enforcement Administration (DEA) registration .. " Both physicians had continuous active licenses. However, both failed to maintain a current copy of their license at the facility. The licenses were reviewed on March 29, 2006.	L 012	L012 1. All residents that where under the physician in questions care were check and no residents were found to be affected. 2. All residents were checked and no residents were found to be affected. The facility followed Its policy of checking to see if the physician maintained current credentials at other institutions. Both of the physician's credentials were current. The physicians did bring in the credentials. 3. The responsibility for monitoring physician credentials will be shifted to the Administrator's Office. The Administrator will provide a monthly status report to the Medical Director. 4. The Administrator will report the status of the physician's credentialing at the bi-annual medical staff meeting and the quarterly CQI meeting. Any physician that is out of compliance will be suspended. Physicians that are continuously out of compliance will have their privileges revoked from the facility. 5. L 438	Continued From page 9 -flammable gas shall be securely racked and fastened at all times. This Statute is not met as evidenced by: Based on observations during the environmental tour, the facility failed to rack and secure acetylene tanks. This observation was made in the presence of the Directors of Housekeeping and Maintenance. The findings include: Four (4) acetylene tanks were observed unracked and unsecured and stored on the floor near the boilers in the boiler room in four (4) of four (4) observations on March 30, 2006 at 11:00 AM.	L 438	L438 1. The four acetylene tanks found in the boiler room were removed, placed in the maintenance storage area, and secured. 2. Residents were monitored for any result of injury or illness due to the area listed. There were no reports or concerns shared during this observation period. 3. Maintenance will maintain all acetylene tanks in a secure and safe environment. 4. Spot check of boiler room wil be made during weekly rounds. Any trends/issues will reported to the CQI Committee quarterly. The CQI committee will make recommendations and modifications to program if necessary. 5.
