List other medical providers in your facility (please attach a supplementary sheet, if needed)

Name	Medical License No.	Medicaid No.	Specialty

VACCINES OFFERED (select only one box)

☐ All ACIP Recommended Vaccines

This space intentionally left blank.

PROVIDER POPULATION

Provider Population based on patients seen during the previous 12 months. *Report the number of children who received vaccinations at your facility, by age group. Only count a child once based on the status at the last immunization visit, regardless of the number of visits made. The following table documents how many children received VFC vaccine, by category, and how many received non-VFC vaccine.*

VFC Vaccine Eligibility Categories	# of children who received VFC Vaccine by Age Category			
	<1 Year	1-6 Years	7-18 Years	Total
Enrolled in Medicaid				
No Health Insurance				
American Indian/Alaska Native				
Underinsured in FQHC/RHC or Deputized Facility[1]				
Total VFC:				
Non-VFC Vaccine Eligibility Categories	**# of children who received non-VFC Vaccine by Age Category**			
	<1 Year	1-6 Years	7-18 Years	Total
Insured (private pay/health insurance covers vaccines)				
Other Underinsured[2]				
Children's Health Insurance Program (CHIP)[3]				
Total Non-VFC:				
Total Patients (must equal sum of Total VFC + Total Non-VFC)				

[1]Underinsured includes children with health insurance that does not include vaccines or only covers specific vaccine types. Children are only eligible for vaccines that are not covered by insurance.

In addition, to receive VFC vaccine, underinsured children must be vaccinated through a Federally Qualified Health Center (FQHC) or Rural Health Clinic (RHC) or under an approved deputized provider. The deputized provider must have a written agreement with an FQHC/RHC and the state/local/territorial immunization program in order to vaccinate these underinsured children.

[2]Other underinsured are children that are underinsured but are not eligible to receive federal vaccine through the VFC program because the provider or facility is not a FQHC/RHC or a deputized provider. However, these children may be served if vaccines are provided by the state program to cover these non-VFC eligible children.

[3]CHIP – Children enrolled in the state Children's Health Insurance Program (CHIP). These children are considered insured and are not eligible for vaccines through the VFC program. Each state provides specific guidance on how CHIP vaccine is purchased and administered through participating providers.

TYPE OF DATA USED TO DETERMINE PROVIDER POPULATION (choose all that apply)

- O Benchmarking
- O Doses Administered
- O Billing System
- O Medicaid Claims
- O Provider Encounter Data
- O IIS
- O Other (must describe):
