

Government of the District of Columbia School Based Oral Health Program Consent Form

Dear Parent or Guardian:

The District of Columbia Department of Health (DC Health) sponsors preventive dental services at your child’s school through the DC School-Based Oral Health Program (SBOHP). Through this program, licensed dentists and their staff provide exams (“checkups”) and x-rays to students who have not seen a dentist in six (6) months. The services include dental cleanings, fluoride treatments, and sealants (as needed). Students that need services not offered (fillings, drillings, shots, tooth removal, or braces) at the visit will be referred to local dentists. Information from your child’s visit will be shared with the school nurse or other point of contact at the school, and with the SBOHP for the purposes of billing, treatment, follow-up, and program monitoring.

PLEASE NOTE: Children should see their dentists every six (6) months. The SBOHP services should NOT take the place of a visit to a child’s regular dentist. The dental providers will check for dental insurance coverage and the last dental visit for all children to be seen at the school, and will bill insurance for any services provided.
