

**Government of the District of Columbia
School Based Oral Health Program Consent Form**

Dear Parent or Guardian:

The District of Columbia Department of Health (DC Health) sponsors preventive dental services at your child’s school/facility through the DC School-Based Oral Health Program (SBOHP). Through this program, licensed dentists and their staff provide exams (“checkups”) and x-rays to students who have not seen a dentist in six (6) months. The services include dental cleanings, fluoride treatments, and sealants (as needed). Children who may need additional services such as fillings, drillings, shots, tooth removal, or braces, will be referred to their dental homes. Information from your child’s visit will be shared with the appropriate point of contact at the school/facility, and with the SBOHP for the purposes of follow-up, and program monitoring.

PLEASE NOTE: Children should see their dentists every six (6) months. The SBOHP services should NOT take the place of a visit to a child’s regular dentist. The dental providers will check for dental insurance coverage and the last dental visit for all children to be seen at the school/facility and will bill insurance for any services provided.
